I am...

A user interface designer, focused on standards-compliant front-end design and development. I'm seeking a collaborative team environment of creatives and technologists that are just as passionate about this industry as myself.

I'm skilled in...

Interface Design (Photoshop, Illustrator, Some Flash) //
Web Development (XHTML, CSS, JS) // Wordpress Development //
Information Architecture // User Experience Design //
Business Development // Project Management // Small Team
Management // Writing for the Web // Technical Writing //
Creative Thinking

I work(ed) at...

Cengage Learning

User Interface Designer • June 2010 - Current

I design/develop interfaces for e-learning applications that are used in schools and libraries. I collaborate with product managers, software developers, and UX specialists to user test designs/wireframes for enhancing the experience of the products being used.

Campbell-Ewald

User Interface Engineer • November 2006 - June 2010

As a user interface engineer, I collaborate with project managers, art directors, information architects, and other engineers to develop websites that meet the business goals of the client.

Tridea Design, LLC

CEO/Co-founder • August 2006 - August 2010

As one-third of Tridea Design, I managed my team in providing creative services to small-medium sized businesses through print, web, and identity design. This included business development, managing projects, creative direction/execution, as well as being the main communications lead with current and potential clients.

University Relations, Michigan State University

Web Designer • August 2005 - May 2006

As the lead web designer, I worked with other graphic designers to help establish a consistent look from the web to print documents. I was responsible for a major msu.edu redesign, being the lead designer on the project. I also assisted team members in the web development process by coding with HTML and CSS.

I graduated...

Michigan State University, East Lansing, Michigan
Bachelor of Arts - Professional Writing, May 2005
